2. Purpose

- The Board wanted to get an idea of the number of year round members that were interested in attending monthly General Membership to keep Members informed of shop activities, supplementing communication with GroupWorks and our Web Site. Additionally, the Board wants Members to provide input to what the Board does on behalf of Members. The way to do this is to participate in Committees and attend General Membership Meetings to provide valuable input.

3. Open Discussion / Membership Input

- The Membership was encouraged to take the lead in issues of shop operation and subsequently advising the Board of their concerns.
- There was a lengthy discussion in concerning monitoring Members activity and contributions to the Club, noting rule of thumb about 20% of the Members do a majority of Club work with no personal benefit; ie, personal storage, project storage, etc.
- Members expressed concern about availability of personal storage, use of lockers, and project storage availability. Roger Smith will work Jim Meyer to generate a letter to Members.
- Shop cleanliness was again brought up noting clamps and sanders need to be cleaned before placing back in storage. In general, do a little extra cleaning.
